FITTING
INSTRUCTIONS for...

HONDA CRF 1000L AFRICA TWIN
-non DCT ('16 on)

www.barkbusters.net

Bar Side View

Preparation

- Remove original factory handguard components if installed.
- Remove original factory handlebar end weights.

Fitting Procedure

1. Fit Threaded Insert (8) and tighten to specified torque setting.
2. Loosely assemble clamp to handlebar as per diagram. Attach backbone with applicable parts as per diagram. Insert Washer (10) on the **RIGHT** side only, between the Threaded Insert (8) and Bar End Weight (9).

Note: The preferred backbone position is horizontal when viewed from the side.

3. Tighten all bolts in the following order (7), (6), then (4) and (5). Use recommended torque specifications over page.

| Recommended Torque Settings | |
|-----------------------------|---------------------|
| M6 | 10 Nm (7.4 lbf ft) |
| M8 | 20 Nm (14.8 lbf ft) |
| M18 (item 8) | 21Nm (15.5 lbf ft) |

CAUTION:

Installation of the handguard is safety-relevant work and can be complicated. We recommend the installation be performed by a motorcycle service technician. Rideworx accepts no liability for damages caused by improper mounting. All screws, bolts and nuts, including all replacement hardware provided by Rideworx, should be tightened to the torque specified in the table. After the first 50km of riding check all screws, bolts and nuts are tightened to the correct torque. We recommend a medium strength liquid thread lock product on all fasteners.

WARNING:

Check operation of all handlebar controls, specifically the throttle, front brake, kill switch and clutch to ensure they are operating correctly and are in accordance with the OEM specifications. Do not ride the motorcycle if any controls are not operating correctly or if rear view mirror vision is obscured. Check periodically that all bolts are tight.

Disclaimer:

A failure to follow these fitting instructions could cause serious injury, death or property damage. These handguards are intended solely for use with motorcycles/ATV/snowmobiles/scooters that have not been modified. They are not designed to prevent injury or death while riding or in an accident or crash. The user must ensure that all controls are free of the handguards every time that they ride. By installing and/or using this product you acknowledge that you accept these terms and have followed the fitting instructions.
